

Spina Bifida is the leading disabler of newborns in the United States. Because of this birth defect, nerves controlling the legs, skin, and internal organs are damaged which causes paralysis, lack of sensation and poor functioning of the bladder and bowel. Medical and surgical intervention aids enormously in correcting and compensating for these problems but the cost of treatment escalates each year.

The US Public Health Service recommends that all women of childbearing age should consume 0.4mg of Folic Acid prior to becoming pregnant and during the first trimester of pregnancy to reduce the risk of Spina Bifida and

**The Spina Bifida Golf Classic is dedicated to the memory of Nicholas Reilly**

Nicky was born with Spina Bifida and was the five-year-old son of Tina and Tom Reilly. Anyone who knew him was touched by his gentleness and resilience at all that he went through in his short life.
